## Superintendent's Report

---

### *To the School Board:*

I herewith submit my third annual report, it being the tenth in the series of such reports.

Only one school is open in Eaton. That school is located at Snowville. Twenty-one pupils are in attendance. Four children attend school at Brownfield.

The school is progressing well under the care of Miss Violet Ward. There was no graduating class last June so we have the same four pupils in Kennett High School at Conway: Lawrence E. Nelson, Alfred G. Nelson, Seth M. White, Bernice E. White. We expect there will be others to enter high school next fall.

The cordial cooperation of the public is appreciated. Parents are interested that the children shall get a good education. We ask for further cooperation in regard to the physical welfare. More children should have dental treatment and every child above one year old should have the Toxin Anti-Toxin treatment to prevent diphtheria. Most of the school children had this latter treatment two years ago but others have entered. It is also advisable for pre-school children to have this safeguard against this dreadful disease.

The school nurse, Miss Harriet M. Curren, makes the following report on the inspection of pupils this year:

Number children examined,	26
Number children 10% underweight, Jan. 31,	1
Number defective teeth,	23
Number deceased tonsils,	7
Number defective vision,	4

For the year ending June 30, 1929, our school had an average attendance of 22, an average membership of 24 and a per cent. of 93. Illness in the school caused a lower per cent. than the year before. The record for the current year promises to be better.

Since the last report the schoolhouses at Eaton Center and South Eaton have been sold. The school

building at Snowville is in good repair. During this year a closet has been built for books and school materials, screens have been provided for the windows and minor repairs made. This neat and attractive schoolhouse should be improved in two ways:

1. Chemical toilets should be installed.
2. Additional slate should be provided for blackboards.

It is interesting to note that September 1, 1929 was the tenth anniversary of the going into effect of the new state school law. At a largely attended meeting of school boards in Concord in December, it was shown that school conditions had improved much during the last ten years. The average school year in rural towns has been lengthened to 36 weeks. More children complete the eighth grade and go on to high school. More high school graduates enter post-secondary schools. Fourteen high schools have been established in rural sections. Every town in the state has supervision. The health of the children is looked after by a nurse or physician. The Normal Schools have grown from 240 students to 924. Soon there will be a trained teacher for every school in New Hampshire.

The future will demand better educated citizens. The citizens of the future are the children of today. Let us do everything we can for the welfare of the pupils now in our schools.

As superintendent of schools, I wish to express appreciation of cordial support in the school work in Eaton.

Respectfully submitted,

F. W. JACKSON.
